

# Tri County Wildlife Care Impact Report 2016

## FLEW BY !!!

*Fur, feathers and a few scales. **915** critters entered our doors (versus **440** in 2011). Bird patients **787**, different species **78**; Mammal patients **124**, different species **17**; Reptile patients **4**, different species **2**.*

*Leaving us healthy and successful – this red-tailed hawk being one – **57%**.*

*Extraordinary volunteers. TCWC's **72** extra special people who devote themselves to the animals and the organization. They are our **HEART!!***

*Why do wild critters rely on camouflage to survive? **3,500** kids & adults learned the answer at one of our **33** Saving Wildlife Saves Us! presentations.*

*Bouquets & banquets for our more than **2,000** supporters who generously gave their time, talent, money and supplies. You are the **BEST!!***

*YES to all **2,950** of you that called for advice on your specific wildlife situation. As partners we can create a world where wildlife & people thrive together!*

*2017 will give us paws!*
