TRI COUNTY WILDLIFE CARE

# SECOND CHANCES

Serving Amador, Calaveras, and San Joaquin Counties

## Wildlife Education Center is Open

Your support turned our vision of having an onsite Wildlife Education Center into a reality! Denise Montano spent countless hours working with Quincy, the Bald Eagle and Ruby, the Golden Eagle, getting them ready. Volunteers Ron Duley and Eldon Clymer spent months planning and building side-by-side eagle enclosures that far exceed Federal Fish and Wildlife guidelines.

The fenced space at the front of our facility is now ready for students and visitors! Our Open House on 10/10/26 from 11am to 3pm will be the first time the public is welcomed in to see the eagles. Please plan to join us.

Quincy came to us nearly three years ago after being hit by a car. She managed to make it to the Feather River where a brave soul rescued her, taking her to the nearest rehabilitation facility. TCWC immediately asked to take her and was surprised after a year long wait to be able to get her.

Ruby came to us as a California Fish and Wildlife seizure from a facility where the care was awful. She has a poorly healed wing fracture that renders her flightless. Ruby is a beautiful Golden Eagle, but with no records, we know very little about her.

# ♥ A Tribute to Dolly ♥

It is with heavy hearts that we announce that our education ambassador opossum, Dolly, has passed away. Dolly came to us with a serious wound on her abdomen that compromised her pouch leaving her not a good candidate for release. Dolly was always with Kelly Zaccaria at schools and events working to change negative attitudes about opossums.

We also want to mention how we appreciate Dr. Kyle Billuni and the staff of Upper Ridge Veterinary Clinc for their loving care of Dolly as she declined. We hope that everyone that met Dolly will remember her docile nature and the benefits opossums provide.
